Sliding Scale Fee Program

Faith Healthcare offers a Sliding Fee Scale Program to all income eligible uninsured or under-insured patients. This program allows qualifying patients to receive medical care at a lower cost. Eligibility for the Sliding Fee Scale Program will be established by determining the household size and the annual household income. This information must be updated annually or when major changes to income have occurred.

HOW DO WE DETERMINE HOUSEHOLD SIZE?

All members of the household who are related by birth, marriage, domestic partnership or adoption.

IMPORTANT REMINDERS

Patients must complete the application for the Sliding Fee Scale Program and return valid proof of income.

Patients have 30 days to return proof of income before they are responsible for paying any charges in full.

Patients must update financial information every year or at any time a major change in income occurs.

Patients who don't bring proof of income will be allowed to self-declare for the first visit.

Those who qualify for the Sliding Fee Scale Program are expected to pay at the time of service. Refusal to pay the appropriate fee may result in the appointment being rescheduled (some exceptions apply).
